

## A Compelling Case for IP Telephony

FreedomPipe lets you get the most out of your communication system without spending valuable time managing it. FreedomPipe is a professionally hosted and managed IP PBX service that bundles local and long distance calling and Internet access on one or more managed T-1 circuits, simplifying voice and data communications. Since you no longer need to provide or maintain your own PBX, FreedomPipe will save you money. You get all the world class calling features such as call waiting, forwarding and conferencing, and you can leave the management and maintenance worries to us.

Using FreedomPipe will empower your employees like never before. Calling features, administration and reporting are all managed through an intuitive web-based interface. And moving, adding, or changing features, employees or extensions is simple and fast.

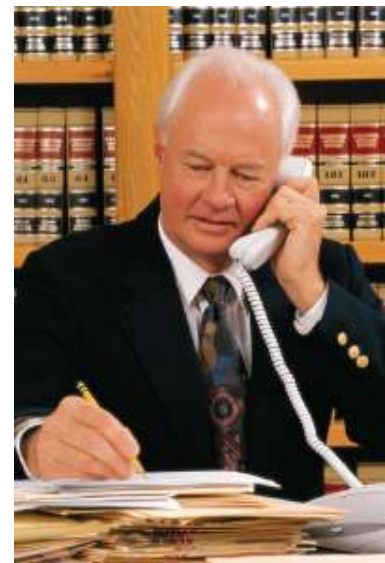

### FreedomPipe for Law Firms

- ✓ Track billable time with web based call logs
- ✓ Advanced call forwarding so you never miss a call
- ✓ A reliable high – speed Internet connection
- ✓ Unique telephone number for each employee
- ✓ Competitive Long Distance Calling Plans included

### FreedomPipe – Beyond a Reasonable Doubt

Law Firms are no place for missed calls or lost messages, so you have to choose a system that won't let you down. FreedomPipe provides all the high-tech features of a sophisticated phone system, plus advanced call handling and voicemail features that keep up with your office's needs.

You can control phone calls from any web browser with point and click simplicity. Switch call forwarding on and off in seconds. Set up customized paging, call screening and find-me/follow-me features so lawyers never miss crucial calls. Forward voicemail to email. And you can also use FreedomPipe to connect remote office users as if they were all sitting in the same office together – with extension dialing, a single company wide attendant and no long distance charges between offices.

# FreedomPipe

## **FreedomPipe Will Help Lawyers, Paralegals and Office Staff Win Tough Trials and New Business.**

### ***With FreedomPipe, you are always in the office even when you are really in court.***

FreedomPipe is ideally suited for law offices where employees spend a lot of their time out of the office, in meetings or in court. Users have their own personal telephone number that they can forward to Find Me/Follow Me out of the office or down the hall. Our handy "Voice Assistant" allows users to screen incoming calls on their computer and elect to send callers to Voice Mail, transfer to another extension or assign to a "call later" list. And if you are waiting on an important call, you can assign the caller's telephone number to an Urgent Call status and that call will forward to find you at any number you designate and only that call comes through while other calls go to voicemail. Business voicemails can be checked in a single voice mailbox from any phone, internet connection or email account.

### ***Timesheets will be a breeze.***

FreedomPipe Personal Call Manager provides an online log of all incoming and outgoing calls that will help lawyers and paralegals know how much time they spent with clients on the phone down to 00:00:01.

***One Single Monthly Bill*** for all your local telephone service, long distance, telephone system and Internet access. The managing partner will love the simplicity and the savings.

### ***Reduced Management, Less headaches, More Support***

With FreedomPipe's web based administration you can move users or make changes to a user workstation instantaneously. Users can set up their own voice mail, conferencing, call routing and features – fast and easy. No more waiting for service technicians – and if you need us, even in the middle of a late night trial prep, your dedicated Customer Care staff is available by phone, on the web or in your office - 24/7.

**More Powerful Features for less than you are probably paying today.  
Who wouldn't take that deal?**
