

Introducing FreedomPipe A HOT PROPERTY For today's Real Estate Companies

FreedomPipe is a hosted IP PBX Service. Local, long distance and data communication share one T-1 simplifying office communications, and saving you money on equipment and maintenance since you don't have to purchase or maintain your own telephone equipment. You get world class calling features that will make your agents more productive, but you can leave the technical worries to us. Freeing you up to sell more Real Estate!

Flexible, Efficient and Affordable

When getting the call can make or break the sale,
FreedomPipe won't
let you down.

Advantages for Real Estate Offices

- ✓ Every agent receives a separate personal phone number
- ✓ Make sure your agents get their calls – where ever they are
- ✓ Help your agents be more productive with online call logs and call management
- ✓ Get high speed Internet and access to MLS for the whole office
- ✓ Quickly add or remove agent extensions and features
- ✓ Got out of town clients – FreedomPipe includes LD minutes at no extra charge

**Location,
Location,
Location**

With FreedomPipe, you're always in the office – whether you're at your desk, on your cell, or showing a property. You have the freedom to get your calls where you are and the freedom to screen or forward your calls. And you can check one Voice mailbox from anywhere. Freedom to sell like never before!

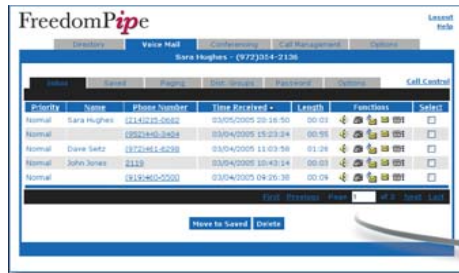

High Speed Internet for Accessing Multiple Listing Service

With FreedomPipe, T-1 or DSL bandwidth is shared between voice and data services. When the phones are not in use, all the bandwidth is available for Internet access.

It's full time dedicated Internet access on our private network.

Web Based Management

FreedomPipe's Personal Call Manager gives users the control they only dreamed about. Forward your business telephone from any internet connection. With our "Remote Mode" use your home phone as your office phone and your caller ID will display your office telephone number, keeping your cell phone and home phone numbers private.

FreedomPipe Delivers Value for the Whole Office

With the calling features used by Fortune 500 companies at a price that a five person office can afford, FreedomPipe is more than just an affordable telephone system. With a generous amount of Long Distance Calling included, you can close those out of town clients. Adding agents and changing features is a snap. FreedomPipe allows you to use your existing analog telephones or upgrade to IP telephones to take advantage of what FreedomPipe has to offer.

FreedomPipe Managed VoIP Service includes:

- ✓ Managed T-1 Broadband Connection
- ✓ Hosted PBX Telephone System
- ✓ Voice Mail and Unified Messaging
- ✓ Local, Long Distance and Toll Free Calling
- ✓ High Speed Internet Access
- ✓ Conference Calling Service
- ✓ Professionally Hosted with 24/7 System Monitoring
- ✓ Optional Email, Web Hosting, Secure Off Site Data Back up Services

One Communication Supplier, One Bill and One Number to call for Service and Support

With all your communications needs from one supplier, the headaches of dealing with multiple vendors (and separate bills) are reduced. And when you have questions or need support for any of your communication services, just one call to our customer service department does it all.

Digitel's rich 23 year history of service and support will give you peace of mind. That's why so many of Atlanta's most prominent real estate companies turn to us to manage their communication systems. Find out how we can tailor a solution for your agency.
